A letter to New says the campaign receipts were \$2,880,000, besides \$107,000 left over from the 1900 campaign. A letter of Col. Roosevelt was also read urging the elder Bliss to accept the position, but it said nothing regarding contributions.

Shaw needed no evidence of recog-nition by the State central committee.

It is a matter of common knowledge that the State central committee is also for Roosevelt and Johnson, and that it recognizes the central committee of which Jackman is chairman. Declaring that homesteading in the West, which in a large measure ac counts for the bumper crops, is also responsible for the high price of beef, which will go still higher before it falls to normal again, Secretary Wilson said:

"The day of Indians, cowboys and cattle barons has passed. The great cattle ranges have been cut up by homesteaders who have not yet started to breed cattle. When they do the land will support more cattle to the acre than it ever did in the days of the ranges and the price of meat

"The killing of calves must be stopped if the rise in the cost of living is to be checked. Beef is more healthful than veal, and there is every reason in favor of raising beef. The increase in the price of meats leads a corresponding increase in the price of all necessities. The solution of the problem is in the hands of the people themselves. If there is no market for year there will be no calves slaughtered."

That San Diego's position is thoroughly selfish is being realized each day by a larger number of San Diego's people. Fortunately, the Spreckels whip cannot control the independent voters of San Diego, though the crack of the whip seems to have a tremendous effect among some of the politicians. The Progressives of San Diego are staying with Evans, and they are staying with him to a finish. Thinking Republicans of all factions, as in Orange county, are gradually getting in behind him, and from present indications when Nov. 5th comes around Kettner will be fortunate if he gets in San Diego any thing more than the Democratic vote and the vote that is directly under the influence of the Spreckels crowd. It now looks as though San Diego county will be carried by Evans. Every other county in the district will undoubtedly give him a majority. Orange county with all her farming and orchard industries at stake cannot afford to do otherwise than make it about three to one for Evans.

THE COLORADO PRIMARIES The number of voters in Colorado who heeded Colonel Roosevelt's request to remain away from the primaries is most encouraging. A telegram received at the New York headquarters announces that the Denver Republican vote two years ago was 16,000, and on Wednesday of this week it was only 4000. Throughout the state the vote was only 20 per cent of normal.

Picket lines of from 5000 to 12,000 men and women every morning at 4 and a o'clock formed about the mills and tramped back and forth in the snow and slush to persuade non-strikers to join common cause and fight for better wages. 'mis finding of the yellow metal in the sand of the river whose waters turned the wheels of Captain Sutter's saw-mill on the South fork of the American river, seems utterly to have changed the life and fortunes of the state of California. From a slowly trickling rivulet, the tide of immigration became a mady rushing corrent; a sweetly pastoral people was changed into a grasping, clamoring horde-rushing, toning, digging fighting, for gold!

in less than three years more than a milion dollars worth of gold was taken from California's mines—and yet, the man who made the discovery, and his employer, Captain Sutter, gied ruined and penniess.

New orchards and vineyards began to blossom and bear; new enterprises sprang into being up and down the coast. Life became more strenuous and less comfort-taking, wnile the restless spirit, p. commer-cialism routed the dreamy case of the past.

In conclusion, Mr. McGroarty urged the putting forth of greater efforts in the preservation of the old land-marks; he advised the holding of more Fiestas, the placing of more monuments to mark the graves of our history-makers. And, above all, to not forget, in our rushing life, the beauty that lies all about us on pur-ple hill and misty vale. He bade us through precept and example, taught pause, and let the glory and the greatness of it sink into our souls, there to reign in place of sordid commercialism and struggling ambition.

Iron (and all flat sheets) will be considerably higher before this year is gone. There has already been several slight advances within the past thirty days, but we placed our orders early and the iron we have "to arrive" with a good stock on hand will hold this market steady for some time. The general tendency is upward for all heavy

goods in our lines and we have provided for the immediate future by placing our orders farther ahead than usual, by and by we will be compelled to pay the higher prices if our "guess" is correct.

Our stock of Plumbing goods is about complete and all our plumbers and tinners are busy. The outlook for the year ahead is good, barring

SAVED BY FAITH, NOT NOW BY WORKS

"It is Not of Yourselves: It is the Gift of God."

Pastor Russell Points Out That Present Age Is the Faith Age—Next Age Will Be the Age of Works—Address to a Large Convention of Bible Stu-

Sept. 29. — Pastor Russell addressed a Jarge Convention of Bible Students here. He received closest attention. We report one of the discourses from the text, "For by grace ye are saved through faith, and that not of your selves; it is the gift of God."-

Halifax, N. 8.

Ephesians ii. 8. The speaker conceded that the sub ject of faith and its relation to salvation had been considerably confused in the minds of many for centuries. He held, however, that clearer views are now permeating Christian minds and hearts and that the conflict between salvation by faith and salvation by works as at an end. Both are now seen to be necessary.

Age of Faith-Age of Works.

Pastor Russell declared the present 'Age the Age of faith and the on-coming period of Messiah's Kingdom the 'Age of works. He cautioned his hearers, nevertheless, that, in harmony with what he had already shown in the Scriptures, this does not mean that no works are now required nor that in the future Age no faith will be required. The standard or test now is faith and not works. The standard or test of the next Age will be works, not faith. The reason of this difference, he said, was manifest: because of the fallen condition of the entire race none could do perfect works now, and, if judged by works, all would be condemned afresh. Hence God now in dealing with the Church requires them to walk by faith and not by sight. In the next Age, during Messiah's reign, he claimed that all the clouds and darkness, all the ignorance and superstition, will pass away before the rising Sun of Rightcourness. - As a re-suit faith in the next Age will be a very simple matter. Knowledge will be so great that faith will take second place. Then good works will gradualbecome the test and mankind will gradually rise out of imperfection of mind and body. All the willing and obedient will be able to do better and better until finally, by the time of the close of Messiah's reign, all the willing and obedient will be perfected and able to do perfect works. And their judgment will be according to works.

The Present Grace Age.

Everything that God has arrange to be of His/grace. God is not bound by justice to do anything at all for humanity; therefore whatever is done is of Grace or unmerited favor. The next Age also will indirectly be an Age of Grace in that all the blessings that will go to mankind in the way of earthly Restitution will be unmosted.

State of California, County of Orange, ss. On this 30th day of August, 1912, before me personally appeared Carlos F. Mansur, Carl O. Mansur and Albert C. Lantz of Santa Ana, Orange County, California, known to me to be the persons whose names are subscribed to the foregoing instrument and they acknowledged to me that they executed the same. for human salvation is properly said earthly Restitution will be unmerited. so far as they are concerned. But the Grace of that time will more particularly be the Grace of the Lord Jesus Christ, because all those blessings will come from His having met the deds of Justice on man's behalf.

But the present Age is peculiarly one by the death of Jesus. Jesus merely nature for mankind by the sacrifice of His own human rights and human na-ture. God's grace is manifest now in that the Church is called to a glery. honor, immortality, Divine nature, which she never had and never lost and which was never redeemed by Jesus' sacrifice or otherwise.

The merit of Jesus applied to the Church now in response to faith and obedience justifies us in God's sight to the extent of permitting us to present our bodies living sacrificis. But Grace provides that this sacrificing on our part shall be counted in as though it

How shall we understand this state ment? Surely God does not exercise faith for us and then consider it some thing on our part which He is willing to reward. The explanation is this: Faith is possible only where it has a basis of knowledge. In proportion as Divine providence grants us knowledge of Divine things it is possible. exercise faith proportionately. And our works in harmony with such faith

demonstrate the sincerity of our faith The same principle continues throughout this Christian Age. Grace opens the way for knowledge. Knowledge paves the way for falth and begetting of the Holy Spirit. Then works to the extent of opportunity should demonstrate the degree and quantity and sincerity and loyalty of the faith. The present Age is the test time, for the Church. Perfect faith is possible to be attained and must be attained, if we would have the highest blessing God is now offering. And if we have that highest faith, God will see it in our works and endeavors, ho were faperfect they may appear to others.
